Police Court News

On Tuesday evening last, Mr. Worth appeared before P. Moth Esq., J. P. and O. C. Connah, Esq., J. P. to answer to a charge of assault and battery, laid by one Mr. Isaman, who resides between here and Consort.

In the course of evidence, the accused, who is a returned soldier, admitted striking the complainant, but averred that foul and abusive language was used. Since the complainant was on his own place however, that part of the defence did not carry much weight with the justices. The complainant, who is a cripple, partly paralysed, averred that the accused knocked him down, kicked him, pulled him to his feet and kicked him again.

The accused was found guilty of the charge, and was fined \$75.00 and costs, or six months at hard labor. The fine was paid.

Local Happenings

We take pleasure in introducing a new advertiser to the readers of this newspaper, namely, Mr. J. Hamer. Farmers especially will reap the benefit if they read Hamer's advert each week. Try it and see.

Bills are out announcing a Big Dance to be held in the Big Hall in town, on Friday, Oct. 15. The "Montreal Jazz Band" are responsible for the dance we believe, and we understand the outstanding feature of the music is the "star" drummer that accompanies the Orchestra. Come on out and give them the once over.

Will the scholars who won prizes in the recent school fair please call at the News office and secure their money as soon as possible please. It is desirable that the books be straightened out soon.

Considerable delay has been caused to the threshing operations in this district during the past week, by the continual rainfall and excessive winds.

Mrs. Barker left on Friday last, for her home in England. She is making an extended visit there, and at present is not sure whether or not she will return to Monitor. Mr. Barker is remaining in town for the present.

A. J. Deadmarsh left last Sunday on a business trip to Saskatoon. It is supposed to be on business, but we believe Felicia Fewclothes, of "Star" fame has something to do with it.

Now is the time for some enterprising man with a little capital to invest his money in a few houses. Dwellings are again at a premium in Monitor. Several have asked us already

Remove the Discrimination

Certain statements of fact contained in the recent decision by the Board of Railway Commissioners upon the application of the railways of Canada for largely increased freight, passenger and sleeping car rates call for serious consideration by the people of this country. The facts referred to are of vital concern to the people of the West, and they must be the active agents in forcing attention to them with a view to reform, but they are, in a broad national sense, matters of importance to the East as well as to the West.

It is not the intention of this article to discuss the merits of the case for increased rates; that is a matter to be decided in the light of costs of operation, wages paid, and costs of material used which the Railway Commission is well qualified to judge for itself. Apparently the Commissioners were thoroughly convinced that increased rates were fully justified and indeed a necessity if the railways were to be efficiently maintained.

But in granting increased rates the Railway Commission authorized a 40 per cent. increase in Eastern Canada and a 35 per cent. increase in Western Canada. In explanation of this difference between the East and the West, the Commissioners, in their judgment, pointed out that the existing rates were from 13 to 18 per cent. higher in the West than in the East and they, therefore, authorized a five per cent. smaller advance in the West than in the East in order to partly remove the discrimination against the West which it was thus frankly admitted existed.

The action of the Commissioners was right so far as it went, but it did not go far enough. If discrimination against the citizens of any one section of this Dominion exists it is the duty of the Board of Railway Commissioners, as a national body, to proceed to order the removal of that discrimination. One of the reasons for the creation of the Railway Commission was to put an end to discrimination rates in Canada and to see that even-handed justice was accorded to all.

The failure of duty on the part of the Railway Commission is all the more marked and inexcusable because in this same judgment it is also frankly admitted that costs of railway operation per ton or per car mile are lower in the West than in the East. If there is any justification whatever for a national administrative body to sanction discriminatory rates, then the lower rates should apply in the West where costs of operation are lower, than that the East should enjoy the lower rates where the costs of operation are higher.

We hear a great deal these days in the nature of appeals to the Canadian people to develop a national spirit. They are urged, and rightly so, to think nationally rather than Provincially; to view national questions, problems and policies in a big way as they affect the whole country, rather than from a narrow and selfish sectional standpoint. The East and West are urged to get together, and emphasis is laid on the necessity of closing the gap which unfortunately exists in sentiment and upon economic issues between the manufacturing and financial East and the agricultural West.

Such appeals are all right and quite legitimate. It must be frankly recognized that the best interests of Canada demand the creation of a truly national spirit and sentiment in order to promote the sound and rapid development of the Dominion. Such a spirit is absolutely essential to the making of a real nation. But nothing is to be gained by shutting our eyes to the fact that inculcation of national sentiments is not possible so long as the people of one-half of the country are made to suffer loss because of unfair discrimination enforced against them by a national body which is supposed to know neither east nor west in the discharge of its administrative functions and powers.

If a Federal Government Commission admits that discrimination is practised against one section of the Dominion, and it sanctions that discrimination, it is proceeding along a course which makes for disunion and effectively kills the movement for the development of a broad and sound national spirit. The inevitable effect of such action is to arouse a spirit of antagonism in the West against the East, and to give force to a renewal of the old demand for the division of the Railway Commission into two sections, one for the East and one for the West—something that is the reverse of national.

The feeling prevailing in the West that many Eastern people and interests look upon the West as a cow to be milked for their benefit, and that they have about as much regard for the West as they would have for a cow, is not allayed but increased when a national body like the Board of Railway Commissioners authorize the perpetuation of discriminatory railway rates against the West—a discrimination which by their own judgment they show to be unequalled for upon economic grounds and, therefore, rankly unjust and unfair.

In the interests, not of the West alone, but of all Canada in order that a real national spirit and a sense of nationhood may be developed, this discrimination should be removed once and forever. It is the duty of Parliament to amend the Railway Act, if necessary, specifically forbidding any and all such discrimination.

Strike Leader Released.

Winnipeg.—R. E. Bray, one of the Winnipeg strike leaders, was released from the provincial jail here. He was met by a few friends, but there was no public demonstration. Bray was sentenced to six months for being a "common nuisance," but two weeks was taken from his sentence for good conduct while at the jail farm.

Great Agricultural Wealth.

The gross value of the agricultural wealth of Canada in 1919 has been officially estimated at \$7,739,299,000. The total estimated agricultural production for the year was \$1,975,841,000. The value of farm land throughout the Dominion \$2,792,229,000; buildings at \$928,548,000; implements, \$387,079,000; farm livestock, \$1,296,602,000.

PALLID CHEEKS MEAN ANAEMIA

New Health Can be Obtained by Enriching the Blood Supply.

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches and breathlessness and heart palpitation will confirm that she is anemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold on the system.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich, red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Crop Outlook in the Okanagan.

Whilst it is estimated that the production of apples in the Vernon, British Columbia district will this year fall somewhat below that of 1919, pears, it is stated, will double last year's crop, and the peaches, cherries and apricots will maintain last season's figures. Onions and tomatoes and potatoes have a larger acreage this season than ever in the history of the district, and the output of all three are expected to constitute records.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose the famous Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting. There is no medicinal oil compound that can equal this oil in its preventive and healing power.

According to current report, one of our citizens was given the chance to go on tour with the Maple Leafs.

It sounds like it.
And then some.

Tommy Watson says he has not been taking singing lessons from Ivan Awfulitch.

T. H. Ferguson, must be going to start a "beauty parlor" in connection with his grocery store. Anyway, we saw him diving in the door on Monday with a couple of packages of Alabastine.

We understand the strongest supporter of the "Drys" was elected as President of the shambang at the meeting held to discuss the Referendum last Wednesday evening.

At the same meeting there were 3 drys and 18 wets. The wets were the driest of the lot.

The Oil gang from the outfit east of town were also present in a body and went wet with a bang. They apparently don't want to strike a dry hole in Monitor.

At the close of the meeting Doc Lawler feverishly spent some hours and a number of reams of paper in writing orders to the H. B. Co., L. D.

The First Year Gone

With this issue the Monitor News celebrates its first birthday under the present management, and we wish to thank our many readers for their royal support. We realise that the past year has been one of hardship. A year in which the utmost economy was used, but in spite of continual adverse conditions we are glad to report that our subscription list has shown a decided increase. To our advertisers also we wish to extend hearty thanks and appreciation of their support.

We wish to assure our readers that no effort will be spared in the coming year, to make this journal "bigger and better" than before and in this respect beg to remind you that the columns of the News are public. Any correspondence will be published, whether local items, or articles on current questions, providing the name of the writer is shown.

Once more thanking you one and all, for your support, and trusting that we may long be favored with the same, Sincerely Yours

Beautiful Costom, Worn At Farewell Dinner To Prince Carol, To Be Sold To Aid Rumanian Relief

This beautiful national costume, which was once the property of the Princess Cuza, of Rumania, is to be sold in aid of the Rumanian Relief Committee. The gown is the property of Mrs. Malko Clar, noted as a social worker of New York. Twenty-eight years ago the gown was presented to Mrs. Clar by Mother Superior of a Rumanian convent, whom Mrs. Clar had saved from an injury. It was brought to this country by Mrs. Clar and remained in storage until recently when worn by Miss M. Clar, Secretary to the Rumanian x Consul in New York, at the farewell dinner given to Crown Prince Carol of Rumania, at the Waldorf Astoria. Miss Clar is shown wearing the beautiful costume which is probably the finest of its kind in this country.

Love of The Wild

— BY —
ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued)

Years ago, on a fine estate in England, he had possessed a little sister who was the kin he could claim in the world. He more than loved the girl—he worshipped her as few men have been known to do. She could not make a wish he would not gratify. And the girl she loved the best brother better than anything in the world, until that other love awakened within her. One day she forsook the brother, leaving a brief note behind. She had married a man who was beneath her station in life, and fled with him across the ocean. Hallibut faced his grief and went the way alone. From that day his world had been a lonely world. Change of scenes, excitement, or even the chase could never make him forget. The sister's face was always there. He sold the estate and sought forgetfulness in travel. Then he did what he should have done at first—he sought the girl. But he found her not. He joined the army, but even the thrill of the fight gave him no respite from sad memories. At last he turned for solace to the Wild; and in the big house, with one old family servant, he had lived for years now. Out in the open all day long, and at night by his fireplace with a picture in the glowing coals and a portrait looking from the wall—this was the man's life as it was lived.

As the hoursman penetrated deeply into the forest gloom and the heavy shadows settled more closely about him, making the trail hard to keep in its blackness, he grew more and more. Dick asked to come out and meet him, as he sometimes did when forced to return after night. The woods had a way of playing pranks upon him. He was not bred for the bush, and therefore there were things about it that he could never hope to learn at his age. Still he knew the trail he was on well enough to have followed it blindfolded, had it been necessary. He settled lower in the saddle, and with his mind on Synthe and Watson and the Bushwhackers, he passed down the trail.

He had been perhaps two hours in the saddle, and was nearing what was known as the Fire-Lick, a low, charred scar of territory that had been swept by fire years ago, when he was aroused from his meditations by the growl of his hounds. The dogs were acting in a most peculiar manner, running ahead for a few feet and then retreating almost beneath the horse's heels. The horse, too, seemed

ed to catch their spirit, for he reared once or twice, and would have thrown the rider had he been other than Hallibut himself.

"What the devil!" cried the man, striking the horse with the quirt and whistling to the hounds. "What's the matter with you lot, anyway?"

The horse leaped forward so suddenly that an overhanging branch caught the rider's cap and swept it from his head. With a promise that he would teach the animal to act differently, the Colonel slid down from his saddle and with the bridle-rein over his arm stooped to feel in the darkness for his cap. A hound almost beneath the horse lifted its head and howled, and the frightened beast with a snort reared and, jerking away from the man, sprang down the trail in the direction from which he had come.

Hallibut arose and fumbled the hammer of his rifle. He had his hands full with the dogs, for they crowded around him whining and growling and in every way manifesting their care on the unseen enemy. He did not understand it. It was a pretty predicament for him to be in, surely. It meant ten miles of a walk, and he was tired. He stepped out and, followed by the dogs, made to cross the Fire-Lick that stretched like a black lake before him. At its border a circle of gleaming eyes met him.

"Wolves!" he shuddered and, throwing forward the rifle, he drew a bead on those shifting balls of fire and pulled the trigger. The hammer fell dead. No explosion followed, and the circle narrowed toward man and dogs. Hallibut sprang for a nearby tree and drew himself up into its branches.

As he swung aloft a dark shape hurled itself into the air, and he heard the wolf's teeth snap within a few inches of his pendant legs.

"They'll get my hounds," thought the man. "Back-Pinch! back, Gabe! Nell you fool, get back there," he cried excitedly.

But the fighting blood was up in the dogs. In numbers they were inferior to the foe, but in fighting tactics they were superior. The master knew each dog by its voice. And now it was Pinch who gulped a challenge, and the whimper of Nell bespoke her eagerness to back him. Gabe, the heaviest of the hounds, had closed on the wolf which had first sprung. Hallibut heard the snapping of bones—then a number of other wolves hurled themselves forward. He could hear the dogs snarl as they fought, and he lent his voice to their encouragement.

"Easy, Gabe," he shouted; "Nell, get easy!" and he swung into the open. "Don't let 'em get you in the thick timber."

Hallibut had placed another cap on the muzzle of his rifle, and as the struggling mass surged back into the cleared space he fired into it point-blank. A wild howl told that a wolf had been hit.

"That's all I can do, poor claps," he called.

His powder and ball were in the saddle-bags.

"They'll kill them all," cried the man. "They'll kill my dogs. Ha, if Dick only knew and would loose the big 'uns."

The "big 'uns" were a pack of wolf hounds, which on account of their vicious nature, Hallibut kept in confinement.

Even as he spoke, upon his ears fell the sharp crack of a rifle far eastward on the trail, and as its echo died there arose the deep musical bay of wolf hounds. Hallibut scrambled upright on a limb and probed the darkness with his eyes. Those gaunt hounds beneath had heard the baying, too, and they were fighting the dogs never mind fought before. One of the dogs retreated backward, fighting feebly with two gaunt shapes that strove to bear it to earth. Hallibut, with a cry that was half sob, forgot all caution in the animal love he bore his best and dearest companions.

"They'd do it for me," he cried; and clubbing his rifle he leaped to the ground. He was barely in time to save the brave Nell, who with torn sides and lolling tongue and fallen at last, fighting still and snapping with all her remaining force. Just as one of the wolves sprang, Hallibut brought the heavy rifle barrel down upon its head, crushing the skull as though it had been an egg shell. The dog scrambled up and met the other wolf as it sprang toward her master. Then a cyclone of panting, bounding bodies swept in and there was grand the Fire-Lick for a brief space of time.

"Oh, Colonel!" cried a voice. "This way, Dick, lad, and be quick!" the man responded breathlessly.

Dick found his master leaning weakly against a tree.

"Are you 'art, sir?" he asked, dismounting.

"No. See if they've killed Gabe and Pinch, Dick. Lord! but how those little hounds did fight!"

Dick returned in a short time.

"I found two dead wolves, and I can't find any of the dogs, sir," he said. "Listen—they're givin' of 'em 'ell, sir, an' no mistake!"

Hallibut sat down on a log and drew the maimed dog over against his knee.

"Well, old girl," he said chokingly, stroking her long ears "you're a tart, Nell."

The dog whined and licked his hand.

"Pinch, sir," cried Dick, "e be limpin', but he be none the worse; beyond bein' sore as anythink, sir."

In half an hour the rest of the pack had returned and were gamboling and leaping about Hallibut. Great, deep-chested, throaty dogs whose wolf hounds were. Their one consuming desire being to tear down and kill, they felt for the man before them only the blind devotion of dog for master. Hallibut had given them more blows than pats, but he knew how to command respect among dogs.

"How many was in the pack, sir?" asked Dick.

He had drawn two dead wolves into the open and was now dragging a third.

"Somewhere about ten, I should judge," replied the Colonel. "But I can't understand why they should be on the rampage at this time of year."

"Look at this one, sir," cried Dick. "E's so thin that e must 'ave nigh starved to death. All of 'em are thin. There's only one reason as I can think of that would make 'em vicious, sir: they're starvin'—that's why."

"Nonsense," cried Hallibut. "Why the heavy timber is alive with food!"

"Yes, sir, I know that. But you see, sir, those wolves can't get into the 'easy timber; at least they won't go. They won't go through a people's settlement, an' they can't pass back into the woods by the way they came, sir."

"And why can't they?"

"By George, Dick, I believe you're right," said Hallibut.

Had A Picturesque Exhibit

A Vivid Portrayal of the Beauties of Canadian Rockies.

The Canadian National Grand Trunk Railways this year combined to make one of the most striking displays in its history of the Canadian National Exhibition. The exhibit, which occupied two of the three main sections of the railway building, gave a new vision of the extent and resources of the Dominion.

One of the sections was devoted to a vivid portrayal of the beauties of the Canadian Rockies at the point where the peaks reach their greatest heights. The grandeur of the Yellowstone Pass and its surrounding peaks was shown on a scale commensurate with the magnitude of the great mountain chain! The visitor stands under the shadow of a giant cedar, the branches of which arch over the whole of the ceiling. At his feet are the Maligne Falls and the turbulent silver stream of the Maligne River, threading its way among the foothills. In the background is a panorama 100 feet in length, of the magnificent mountains in Jasper National Park and Mount Robson Park, the two great scenic reserves through which the Canadian National and the Grand Trunk Pacific Railways make their way to the Pacific Coast.

Mount Edith Cavell, the beautiful peak named by the Dominion Government in memory of the martyr nurse, is in the centre of the panorama, and is supported by Mounts Geikie, Fitzwilliam, Pyramid, Roche de Smet and Roche Miette, with the massive Mount Robson, the monarch of the Canadian Rockies, looming up in the distance.

The atmosphere of Canada's mountain world was retained in a wonderful way, and it was difficult for the observer to realize that he was not viewing the scene from some favorable vantage point in the Rocky Mountains.

The system of lighting was arranged to give, in various periods of the day, the effects seen among the mountains at sunrise, noonday and evening.

In the second section of the exhibit the working the Canadian Government marine was featured in connection with the great network of railway lines that is now known as the Canadian National system.

Adding a graphic touch to this display, the ships of Canada's merchant marine were seen flashing actual wireless messages, and these were picked up in turn by no fewer than 43 wireless messages. In order to make this possible the Marconi Company installed an aerial system above the railway building to receive messages from all points, these being handled by an operator housed in an exact replica of a steamship's wireless cabin.

Simultaneously the messages were spelled out in Morse by a wonderful system of miniature lamps spread

over a gigantic map of the Dominion of Canada. In addition to the wireless telegraph apparatus there was kept working the new system of wireless telephony. Expert engineers were on hand to explain in full the working of the various forms of apparatus.

The Canadian Government department of marine also assisted in making the Canadian National exhibit complete, and showed a remarkable series of aids to navigation, including large revolving lighthouse lanterns and beacon lights, fog horns, etc.

Emphasis was also placed in the exhibit on the opportunities awaiting the settler along the lines of the Canadian National Railways, the whole display being excellently planned and carried out on a high scale of excellence.

SAYS FARMERS AND SEDITIONISTS ARE IN LEAGUE

MEIGHEN SPEAKS AT GRANBY.

Believes Farmers' Party Has Joined Hands With Malcontents and Restless Elements.

Granby, Que.—Addressing a large audience in the open air here, Premier Meighen once more treated of the tariff question and largely reiterated his announcement of the previous evening. At the outset he explained that he was not making any attack on the sitting member for the constituency of Shefford, George Boivin, who, being deputy speaker, was outside of politics, but he wanted to address them as citizens in Canada.

Mr. Meighen reiterated the previous statement as to the policy of the Government in prosecuting the war and the subsequent policy in the reconstruction period. As far as he was concerned, he abided by what had been done, with the problem of conscription, during the war, and the re-establishing of soldiers having been solved, the Government was now facing another issue, that of the tariff. Of this question the Government was being challenged, although the people had decided on it three or four times already. The Premier proceeded to show how the Farmers' party was committed to free trade, and that the strength of that organization was enhanced by the undoubted fact that it had joined hands with and dragged behind it, all the malcontents and restless elements of the country.

"I do not say that the leaders of the Farmers' party, much less their followers, want to overturn representative government," said the Premier, "but I do say that those with whom they have aligned themselves, as for instance, the Winnipeg and Vancouver secessionists, had as their goal the upsetting of the system of government in Canada. They almost achieved success in these efforts and, consequently, I say the addition of the group to the Farmers' party constitutes the party which is the most formidable antagonist of the present administration."

Mr. Meighen went on to demonstrate how Canada suffered from an adverse trade balance with the United States, and argued strongly for a tariff, protective of industries and Canadian workmen. He emphasized the increasing industrial importance of this province, which, he said, was rivaled only by Ontario and not surpassed by that province.

Transfer Track to be Replaced

Railway Board Orders Re-installation of Transfer Track at Conquest.

Ottawa.—The re-installation of the transfer track at Conquest, Sask., between the lines of the Canadian Pacific and the Canadian National Railways, is ordered by the Railway Commission in a judgment written by Commissioner J. G. Rutherford and concurred in by the other members of the board. The work is to be completed not later than November 1 of this year, on the understanding that in the event of the situation being later relieved by the linking up of the Canadian National lines with the Grand Trunk Pacific Regina and Riverhurst subdivision, the matter may again be brought before the board.

Hearings in this application, which was made by the Saskatchewan Stock Growers' Association, Moose Jaw, were held at Saskatoon, Regina, and Moose Jaw, and it was shown that the livestock industry in the district affected was seriously handicapped by the back-haul necessitated by the abandoning of this transfer track in December, 1917.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorp, Ont., writes:—"I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The I. Milburn Co., Limited, Toronto, Ont.

ISSUE REPORT ON SHOOTING OF COUN. LYNCH

SHOT RESISTING POLICE.

Prominent Limerick Sinn Feiner Meets Death at Hands of Constables.

Dublin.—An official report issued concerning the shooting of Councillor Lynch, a prominent Limerick manufacturer, in his hotel room in Dublin has been issued. It says that 12 soldiers accompanied by two members of the Royal Irish Constabulary went to the Royal Exchange Hotel to arrest Mr. Lynch. As they opened the door to Mr. Lynch's room, a shot was fired at them and the military replied to the fire, Lynch falling dead. He was shot through the mouth.

The report states that he was violently resisting arrest when he was killed.

Mr. Lynch's home in Killmallock frequently had been raided.

A motor lorry containing six policemen was ambushed near Limerick by nearly a hundred men. Two military lorries came to the rescue. The attacking party fired and two soldiers are reported to have been killed; 30 arrests were made. Two houses in an adjoining village were burned, supposedly as a reprisal.

The military authorities have commenced an investigation of the Balbriggan affair. A public inquiry will be held at which citizens of Balbriggan having knowledge of the trouble will be urged to testify. The "Black and Tans" in the vicinity of Balbriggan, have been ordered confined in barracks.

The damage done by the "Black and Tans" in Balbriggan, in their raids, after the shooting of two police officers in that town, is estimated at £200,000. Among the dwelling destroyed by the raiders were the residences of Mrs. Frank White, sister-in-law of Eamon De Valera, and Lawrence Flanagan, brother-in-law of De Valera.

Eight armed and masked men entered the Ulster Bank, Dublin, and held up the staff. They escaped with a considerable sum of money.

"Spies and informers beware," was the label pinned to the clothing of a man found in a field in County Carlow.

Canada Has Many Phones

Is Second Among Nations in Use of Telephone Service.

Ottawa.—An interesting comparison showing the popularity of the telephone in Canada has been made by officials of the Bell Telephone Company in connection with that company's application for increased rates, now before the Board of Railway Commissioners.

The figures compiled show that Canada stands second only to the United States in the matter of per capita use of the telephone. The Postmaster-General of Great Britain, in a recent report, gave the figure for Great Britain as two telephones for every hundred of population. On the same basis the United States has 136 telephones per hundred. Canada comes next with 108 per hundred people; Sweden, 64; Norway (1917), 44; Germany (1914), 22; France, 12; Italy (1917), 0.3.

Labor Party Plans Fight in Winnipeg. Winnipeg.—Intent on making a fight for the mayoralty and all the aldermanic offices and school trustees, the Dominion Labor party took the preliminary steps in its civic elections campaign when it instructed the executive to call all the membership for nominating candidates.

Ontario Crop Averages High.

Toronto.—Probably the largest fall wheat crops in the history of the province of Ontario were reaped this year by the farmers of the province. According to the statistics compiled by the Department of Agriculture, the averages are far above previous years, on an acreage of 726,371 acres.

Millerand is Chosen

Favored as Candidate For Presidency to Succeed Deschanel.

Paris.—Premier Alexandre Millerand was chosen as a candidate for the presidency to succeed President Deschanel, who resigned as chief executive of the republic because of ill-health, by the joint caucus of members of the Senate and Chamber of Deputies in the Senate Chamber.

Two of the candidates who were prominently mentioned as possible successors to Deschanel declared themselves out of the running. The men were Leon Bourgeois and Raoul Poret, the presidents respectively of the Senate and Chamber of Deputies.

Before former Premier Clemenceau left Paris on his hunting trip to India, he said, according to the Petit Parisien, that he regarded Premier Millerand as the man best qualified for representing France in the eyes of foreign people.

Traffic in Drugs

Far-Reaching Regulations Affecting the Drug Traffic in Canada.

Ottawa.—By an order presented in a special issue of the Canada Gazette some very far-reaching regulations affecting the drug traffic in Canada go into force immediately. Every doctor and druggist within the Dominion is to be circulated with a view of rounding up drug addicts, and measures are to be adopted which will make the carrying on of illicit drug traffic practically impossible.

That the government health officials are sincere in their effort to clean up the drug evil and also that they are enjoying nothing short of wonderful success is shown by some figures given out. Compared with the three months ending June 30 last year, the amount of cocaine imported into Canada for the same period this year has dropped from 2,376 ounces to 605 ounces. Codeine has dwindled from \$12,284 worth to \$5,816 worth. Morphine has dropped from 11,058 ounces to 3,978 ounces and opium from 7,931 pounds to 992 pounds.

Claim Bolshevik Victory

Reds Occupy Series of Villages in Grodno Region.

London.—An official communication sent out by the Russian Soviet Government at Moscow, says:

FUEL SITUATION IS IMPROVING SAYS CARVELL

IS NO NEED TO WORRY.

Daily Imports From U.S. Have Recently More Than Doubled.

Ottawa.—Much of the worrying which is being done with regard to Canada's fuel supply for the coming winter is needless. That is the view of Hon. F. B. Carvell, chairman of the Board of Railway Commissioners, under whose control coal imports and exports were placed by the Dominion Government during last session.

During the period from April 1 to September 15, 1920, Eastern Canada imported 114,658 fewer tons of anthracite, but 1,852,065 more tons of bituminous coal than in the same period of last year, and as conditions on the other side of the international boundary are improving, so the imports of coal are increasing.

Since the Board of Railway Commissioners took charge of the fuel situation, the imports daily have been more than trebled.

Want Menace Removed

Veterans Object to U.S. Cruiser on the St. Lawrence.

Kingston, Ont.—The United States Government has a cruiser on the St. Lawrence with guns mounted for the purpose of suppressing violations of the liquor laws, according to a protest of the local branch of the Army and Navy Veterans, who have complained to the Federal Government that this is a violation of the treaty between the United States and Great Britain. The Veterans say the use of navy guns on narrow waters of the St. Lawrence is a menace to shipping and Canadian homes.

Are Your Feet Calloused?

Easy to remove lumps-by applying Putnam's Corn and Wart Extractor. This purely vegetable remedy acts painlessly and is guaranteed. Insist on "Putnam's" only, 25c. per bottle.

Last of the Wild Buffalo

Government Exploring Engineer Finds Animals in Mackenzie River Basin.

A herd of wild bison, numbering over a thousand animals, said to be the last herd of the North American continent, has been discovered roaming in the country in the Mackenzie River Basin.

F. H. Kitto, D.L., exploring engineer of the natural intelligence branch of the Department of the Interior, Ottawa, is the discoverer, and he states that he received reports of another herd equally as large further north.

Housekeeper—"I ordered a dozen eggs to-day, Mr. Hightfist, and you only sent me 11."

Grocer—"Well, ma'am, you see, the twelfth egg was bad, and I didn't think you'd want it."

Spare the children from suffering from worms by using Miller's Worm Powders, the most effective vermifuge that can be got with which to combat these insidious foes of the young and helpless. There is nothing that excels this preparation as a worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

To enable the blind in Japan to earn a living, a law is in force prohibiting any but blind persons practicing massage. Consequently a great number of these unfortunates act as masseurs.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly, whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"

Lower Sugar Prices.

Toronto.—"It's probably just the beginning," commented a representative of the Atlantic Sugar Refining Company, on the drop of one cent in the reference quotations for all grades of sugar. The price is now \$21 per hundred pounds, delivered at Montreal, or \$21.30 at Toronto.

When Holloway's Corn Cure is applied to a corn or wart it kills the roots and the callosity comes out without injury to the flesh.

Attacked by Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

The first recorded outbreak of yellow fever occurred in the West Indies in 1647.
